JOIN OUR TEAM!

Eversource is recognized as one of the top utilities in the country specializing in energy efficiency solutions for our customers. Our team of energy experts work with residents, businesses, designers, and contractors across New England to advance clean energy solutions. We provide our customers with the expertise necessary to improve comfort, increase business performance, and lower energy costs. We are building the region’s premier energy efficiency team and are seeking candidates from diverse backgrounds.

Why Eversource?

Serving more than 3.6 million electric and natural gas customers in Connecticut, Massachusetts and New Hampshire, and employing a workforce of more than 8,000 New Englanders, Eversource represents one unified company across three states.

The energy efficiency solutions provided by Eversource have received top honors from national organizations such as ENERGY STAR, American Council for an Energy Efficient Economy, and Northeast Energy Efficiency Partnerships. Come make a difference and work for an employer who is a leader in the industry. We have a great working environment, excellent compensation and benefit programs, and opportunities for growth.

Key roles open in Energy efficiency right now.

Energy Engineers/Program Administrators/Program Managers, Energy Efficiency- Berlin, CT and Westwood, MA. Serve as the “customer’s point person” for energy efficiency programs. Responsible for all aspects of energy efficiency project development at customer facilities as well as coordinating with the vendor networks that supply energy efficiency products and services. Successful candidate must collaboratively work in a team environment to acquire energy efficiency projects that reach performance targets and goals.
Supervisor, Commercial Energy Efficiency, Berlin, CT  Lead the day to day operations required to develop and implement customer-centric offerings for our medium and large commercial customer segment across the State of Connecticut. These programs include capital, energy management, and behavioral initiatives that achieve energy savings. Must be able to supervise and lead high performance teams that promote these offerings in a cost efficient manner that achieve high levels of participation and customer satisfaction. Provide leadership and strategy that inspires employees in a high-growth, fast-paced, fluid and entrepreneurial environment.

Supervisor, Energy Efficiency, Stamford- CT  Lead the day to day operations required to implement energy efficiency programs for residential, commercial, industrial, and municipal customers in the lower Fairfield County area. These programs include in-home single family and multifamily weatherization activities and energy efficiency projects for large commercial and industrial customers. While the role is focused on delivering a variety of energy efficiency programs in the southwestern corner of the state, the candidate must collaborate closely with team members based in Berlin, CT. Must be able to supervise and lead high performance teams that promote these offerings in a cost efficient manner that achieve high levels of participation and customer satisfaction. Provide leadership and strategy that inspires employees in a high-growth, fast-paced, fluid and entrepreneurial environment.

Project Engineer, Westwood, MA  This position is responsible for site-specific energy engineering analyses for technical Commercial & Industrial (C&I) Implementation projects. Provides technical quality assurance reviews of energy engineering studies. Investigates new technologies for Implementation programs and customer facilities. Serves as a technical liaison for Eversource on commercial and industrial energy efficiency issues. Provides detailed engineering support for value-added engineering, procurement and construction projects. Provides direct technical project management as required.

Sales Executive- Berlin, CT & Eastern MA  This strategic sales position is responsible for the development of energy efficiency projects for key industrial, commercial and government customers. This role enables Eversource’s energy efficiency mission of educating our key customers as to the need for significantly reducing energy consumption and persuading them to use the Company’s portfolio of energy savings tools, technologies and approaches. This position will acquire an in-depth understanding of the customer’s operating needs, preferences, business objectives and budget constraints in order to ensure that their investment in energy efficiency solutions yields maximum energy reduction and cost savings.

Customer Engagement Specialist- Westwood, MA  As a member of our Marketing team, coordinate and maintain customer engagement programs for energy efficiency, develop expanded customer engagement programs, and provide strategic direction into how Eversource Energy should grow and improve customer engagement. We recently implemented a new CEP and this is a great opportunity to manage that and grow our business digitally!
